

# TASEK CORPORATION BERHAD

## ENVIRONMENT POLICY

Tasek Corporation Berhad (TCB), is a manufacturer of Ordinary Portland Cement, Masonry Cement and Portland FlyAsh Cement. We recognize the rights of the present and future generations to a clean and friendly environment. We therefore conduct our cement manufacturing operations in such a way that we minimize any potential adverse impact on the community, the environment, and ourselves. Tasek Cement believes that the best mechanism to ensure that this rights is maintained is through the adoption of practices consistent with the goals of sustainable development, striving to obtain a balance between economic performance, social responsibility and environmental improvement.

In order to achieve these goals, the company will conduct its activities within the following strategy framework.

Tasek Cement Management is committed to:

1. Provide necessary resources to achieve these objectives.
2. Comply with applicable environmental legislation, regulations, and other requirements which relate to company environmental aspects.
3. Establish and maintain an environmental management system that complies with the requirements of the ISO 14001:2015.
4. Achieve continual improvement through the process of risk management, execution of performance assessments and implementation of improvement programmes. By optimizing the use of alternative resources and fuel through the use of fossil fuels, use of renewable, recycled, and environmentally friendly resources.
5. Prevention of pollution and minimization of dust and noxious gas emissions.
6. Develop an emergency preparedness programme by identifying the potential environmental risks that may affect Tasek Cement activities with the subsequent implementation and maintenance of risk mitigation measures.
7. Provide appropriate environmental training for all interested parties with a view to achieving the objectives of this policy.
8. Preferentially support and assist environmentally responsible suppliers of goods and services.

TCB will conduct regular review and periodical audit of this policy, objectives and procedure with our employees and related stakeholder to ensure continual improvement and effectiveness of this Environment Management System.

Looi Wan Leong

Deputy General Manager, Plant and Operation
